ABOUT ME

Data professional with experience in building and optimizing data pipelines, analytics solutions, reporting, and dashboards. Strong background with Python, SQL, Power BI, and ETL processes, with hands-on experience in cloud-based analytics environments. Leverage AI-assisted development environments (e.g., Cursor, Claude) to debug complex code, improve existing data workflows, and accelerate end-to-end data product delivery.

WORK EXPERIENCE

Business Intelligence Specialist

Stiga S.p.a. / Treviso, Italy / 2023 – 2025

- Built scalable data models and ETL pipelines (SQL, Python) to support customer level and performance reporting, statistical, and scenario analysis.
- Conducted deep-dive analyses across multiple touchpoints (service, operations, external APIs), linking insights to measurable business impact.
- Extracted, transformed, and analyzed structured and semi-structured data.
- Developed data models and KPIs enabling management-level decision making.
- Collaborated with cross-functional stakeholders (IT, business, management).
- Established API connections for external data access (Python).
- Worked with cloud-based data architectures and analytics concepts in project based environments.

People Analytics & Compensation Specialist

Otokar Motor and Defense Industry / Sakarya, Turkey / 2019 – 2021

- Delivered corporate-wide HR and financial reporting.
- Prepared, monitored, and reported on HR budgets, delivering data-driven insights.
- Performed trend, variance, and scenario analyses to support budget optimization and forecasting.
- Developed KPI frameworks and dashboards for executive decision-making.
- Translated people and cost data into actionable insights for senior leadership decision-making.

EDUCATION

M.Sc. Business Administration

University of Padova / Padova, Italy / 2021 – 2024

B.Sc. Management Engineering

Istanbul Technical University / Istanbul, Turkey / 2013 – 2018

SKILLS

- ETL & data modeling / Data Engineering (SAP BW4HANA, BO, Google Big Query, SQL Databases)
- Data Visualization / Dashboard Administration (Power BI, Tableau, SAP Analytics Cloud)
- Analytics project management (Jira, Wrike)
- KPI definition and maintenance
- API integrations (Python)
- Scenario & variance analysis
- Cross functional collaboration
